

# Asparion's Series of Apps for Windows\* 8.1 Solutions Brief

Solutions Brief  
[Intel® Developer Zone](#)

## Enabled by Windows\* 8.1 Tablets with Intel® Atom™ Processors

As new digital devices provide powerful platforms that enhance our professional and personal lives, useful and entertaining apps have been created to enrich and assist us.

Asparion has created a series of apps for Windows\* 8.1 tablets with Intel® Atom™ processors designed to provide simple yet powerful tools that are functional, playful and inspiring. The Asparion series of apps includes:

- Asparion Calculator
- Asparion Clock
- Asparion Clock+
- Asparion UnitConverter+
- Asparion Periodic Table
- Asparion Metronome
- Asparion Cowbell
- Asparion Bongo
- Asparion Djembe
- Asparion Xylophone
- Asparion Speak

# Enhance your Experience of Windows\* 8.1 Tablets with Asparion's Series of Apps

Asparion has provided a series of apps that offer greater functionality, resources and creative inspiration for new Windows\* 8.1 tablets. As an Intel® Software Partner, Asparion developers were able to optimize its series of apps for the unique capabilities of Windows\* 8.1 tablets with an Intel Atom processor.

Asparion's series of apps includes:

## Asparion Calculator

This simple calculator provides all the calculator functions you may need and supports the "snapped view", which allows users to resize the window to their specifications. Users can use the numeric keypad or zoom the calculator to a desired size.

## Asparion Clock

An easy clock that displays the time in a tile. Users can choose the style, date and time format and customize it to their needs.

## Asparion Clock+

This convenient clock features timer and alarm functions. Plus, users can customize it by selecting background colors, eight different styles and 42 date/time formats. Plus, more tiles can be added with different time zones.

## Asparion UnitConverter+

Convert large numbers of units from many different categories in this handy unit converter. It features more than 300 different units, 21 categories and many different styles.

## Asparion Periodic Table

This handy reference of the chemical elements reveals different chemical groups in multiple colors and allows users to zoom in and out.

## Asparion Metronome

This digital metronome is a convenient resource for musicians that provides consistent and regular beats. Users can change the BPM (beats per minute) and select one of the pre-defined bars, or add a custom bar.

## Asparion Cowbell

The cowbell is a fun percussion instrument for a variety of styles, but especially for salsa. Users can play the different sounds of the cowbell with their fingers through the touch interface or keyboard.

## Asparion Bongo

Play the different sounds of bongo with your fingers right on a Windows\* 8.1 tablet touchscreen or a keyboard. You can play four different sounds of traditional Cuban bongos.

## Asparion Djembe

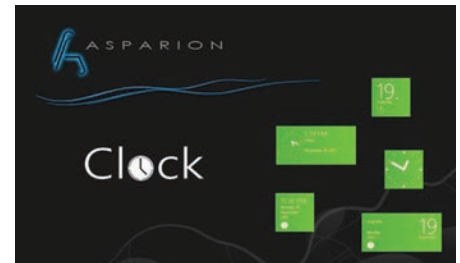

Access the beautiful sounds of Africa with the djembe drum through the touch screen or external keyboard of a Windows\* 8.1 tablet.

## Asparion Xylophone

Get 13 sounds of a musical xylophone right on the touch screen and keyboard of Windows\* 8.1 tablets.

## Asparion Speak

This fun and functional language app converts text to speech and enunciates words in 20 voices and languages.

## Asparion Series of Apps for Windows\* 8.1 Powered by Intel

Windows\* 8.1 tablets with an Intel® Atom™ processor now have a series of apps that create a better user experience. The Intel Atom processor, high-resolution display and interactive touch capabilities of new Windows\* 8.1 tablets provide a powerful platform to get more productive and creative with Asparion's series of apps.
